YUGOSLAVS BUILD MORE SHIPS AND SHIP EQUIPMENT;
BULGARIA COMPLETES PASSENGER SHIP

PRODUCE OIL-BURNING KITCHEN RANGES FOR SHIPS -- Zagreb, Borba, 7 Aug 51

Zagreb, 6 August -- In January 1951, the "Goran" Stove and Kitchen Range Factory in Zagreb began production on the first oil-burning kitchen ranges for ships. The first four ranges were recently completed and tested in the presence of representatives from the General Directorate for Shipbuilding, the "Uljanik" Shipyard in Pula, and the Administration for the Advancement of Production in Croatia, who concluded the stoves were well-built and completely satisfactory.

At present, four types of ranges will be produced. The first series, to be delivered to the "Uljanik," "Vicko Krstulovic," "Treci Maj," and other shipyards, will represent a saving of 6 million foreign exchange dollars, for such ranges were previously imported.

The new ranges may also be used in restaurants.

BUILD REPAIR SHIP -- Zagreb, Vjesnik, 10 Jul 51

The Apatin Shipyard has built and launched in the Danube the first repair ship for the repair of ships in Yugoslav rivers. The ship is equipped for major repair work and will cruise Yugoslav rivers, doing repairs where needed. The repair ship has its own electric power plant and a 12-ton crane.

"TRECII MAJ" SHIPYARD BUILDING 30 NEW VESSELS -- Zagreb, Borba, 31 Jul 51

Rijeka, 30 July -- Thirty new vessels, from tugboats and water tankers to large ocean-going ships are being built in the "Treci Maj" Shipyard. The shipyard is also manufacturing industrial equipment and cranes of various sizes for shipyard and other enterprises.

Work is being concentrated on three ocean-going ships of 4,500 deadweight tonnage of the Loki type.
